

## Quiz Module

Building a culture of safety begins with a well-trained workforce! Develop custom quiz material to be used as a pre-test, final test, or content review to check for comprehension during testing. Associate your quizzes to LMS courses and determine the passing score as well as the number of user attempts. Choose to randomize questions as well as provide E-Learner instant feedback based on the answers selected! No computer available? Print quizzes directly from the system and take them in class. Looking for the ability to take quizzes on the go? 100% of quiz functionality is available on your mobile device or tablet. Take quizzes directly from your mobile phone or tablet. Solve your safety challenges, improve organizational efficiency, and reduce injuries with the Quiz Module!
