

### 5S Profile

The 5S Profile Module is a comprehensive method of creating and assigning questionnaires that link Users to corresponding activities. These activities help to enforce your business practices and contain both assigned training and corrective actions, which are assigned based on the answers provided by the User. These dynamic and personalized questionnaires are easy to set up and maintain. Answer formats include dropdown, multi-select, calendar, and text. With the ability to format question text and add Keyword with definitions, Users are guided through the process. The established 5S Profiles will assist in carrying out all steps of the 5S process including: Sort, Set in Order, Shine, Standardize, and Sustain.

5S Profile flows into AIC's Regulatory Compliance Module where you can track and view the status of 5S Profiles and the Locations they have been assigned to. By adding the 5S Profile Module to your AIC One Global Platform Suite you can maximize your capabilities and further your online business management potential.

The 5S Profile Module will enable you to uphold the following key terms:

- ✓ **Measure:** Utilizing the 5S Profile Module to create custom questionnaires will enable comprehensive measurement of employee's knowledge in regards to important subjects. The questionnaire results will contribute to defining necessary corrective methods for achieving top level business standards.
- ✓ **Assign:** Once Users Complete their questionnaires they can be assigned activities, trainings, and corrective actions based on the answers they have provided. These activities are maintained by the Administrators and can be highly customized to each specific 5S Profile.
- ✓ **Maintain:** 5S Profile flows into the Regulatory Compliance Module where you can view assignments on a Location basis and track the progress of assigned 5S Profiles with ease. 5S Profiles can be reassigned on a regular basis to ensure the employees are maintaining their knowledge on the subject contained therein.
- ✓ **Move Forward:** 5S Profile will allow you to measure the actions, trainings, and corrective actions that need to be assigned to your employees in order to maintain the highest professional standards possible. Through utilizing the 5S Profile Module you will be able to continue to move forward and easily track the progress of your employees.
