

ONLINE TRAINING COURSE LIST

In addition to augmented reality training, trainPOINT also offers traditional elearning courses as a means of keeping your team safe. We possess a large library of readily available courses for you to choose from. We also have the ability to create custom course content.

Upload your own course content at no extra cost.

Last year we added **50** new, cutting-edge interactive elearning courses with the content driven by our stakeholders.

eLearning **ENGLISH COURSE LIST**

157 Courses

ENGLISH COURSE CATALOG: 157 COURSES

Basics: Conveyor Safety - (25 Minutes)

Basics: Defensive Driving Module 1 - (25 Minutes)

Basics: Defensive Driving Module 2 - (25 Minutes)

Basics: Defensive Driving Module 3 - (25 Minutes)

Basics: Electrical Safety - (20 Minutes)

Basics: Emergency Awareness Plan - (25 Minutes)

Basics: Ergonomics for Computer Workstations - (20 Minutes)

Basics: Ergonomics for the Workplace - (25 Minutes)

Basics: Fire Safety - (45 Minutes)

Basics: Fire Safety for Restaurants - (45 Minutes)

Basics: First Aid and CPR - (25 Minutes)

Basics: Forklift Re-Fueling Safety - (25 Minutes)

Basics: Forklift Safety - (25 Minutes)

Basics: Forklift Safety for Supervisors - (25 Minutes)

Basics: Hand Safety - (25 Minutes)

Basics: Hazard Awareness for Supervisors - (25 Minutes)

Basics: Hazardous Materials Communication - (20 Minutes)

Basics: Hazardous Materials Communication for Supervisors - (20 Minutes)

Basics: Hearing Safety - (25 Minutes)

Basics: Housekeeping Safety - (25 Minutes)

Basics: Ladder Safety - (20 Minutes)

Basics: Ladder Safety for Supervisors - (25 Minutes)

Basics: Loading Dock Safety - (20 Minutes)

Basics: Lockout Tagout Safety - (20 Minutes)

Basics: Lockout Tagout Safety for Supervisors - (25 Minutes)

Basics: Machine Guarding Safety - (20 Minutes)

Basics: New Worker Safety Orientation - (20 Minutes)

Basics: Office Safety - (20 Minutes)

Cultivate excellence and educate your teams with a flexible, automated training program that scales as you grow.

ENGLISH COURSE CATALOG: 157 COURSES

Basics: Personal Protective Equipment - (20 Minutes)

Basics: Personal Protective Equipment for Supervisors - (20 Minutes)

Basics: Power Tool Safety - (20 Minutes)

Basics: Power Tool Safety for Supervisors - (25 Minutes)

Basics: Safe Lifting Procedures - (20 Minutes)

Basics: Safe Lifting Procedures for Supervisors - (25 Minutes)

Basics: Safety Data Sheets - (20 Minutes)

Basics: Safety With Flammable Liquids - (20 Minutes)

Basics: Slips, Trips, and Falls - (20 Minutes)

Basics: Slips, Trips, and Falls for Supervisors - (20 Minutes)

Basics: Warehouse Safety - (20 Minutes)

DOT: Hazardous Materials Transportation Classification - (20 Minutes)

DOT: Hazardous Materials Transportation Loading & Unloading - (20 Minutes)

DOT: Hazardous Materials Transportation Shipping Papers - (20 Minutes)

DOT: HAZMAT Transportation General Awareness - (60-90 Minutes)

DOT: HAZMAT Transportation Labeling & Placarding - (20 Minutes)

DOT: Procedures for HAZMAT Transporters Module 1 - (30 Minutes)

DOT: Procedures for HAZMAT Transporters Module 2 - (30 Minutes)

DOT: Procedures for HAZMAT Transporters Module 3 - (20 Minutes)

DOT: Transportation Requirements for Shippers - (60-90 Minutes)

DOT: Transportation Security Requirements - (60-90 Minutes)

Energy: Electrical Safety for Emergency Responders - (25 Minutes)

Energy: Explosive Regulation Guidelines - (60-90 Minutes)

Energy: Explosive Train Assembly Procedures - (60-90 Minutes)

Energy: Explosive Use Procedures - (60-90 Minutes)

Energy: Hydrogen Sulfide Control Procedures - (60-90 Minutes)

Energy: Pipestop and Vdoor Control Procedures - (60-90 Minutes)

Energy: Pressure Safety Procedures - (60-90 Minutes)

Cultivate excellence and educate your teams with a flexible, automated training program that scales as you grow.

ENGLISH COURSE CATALOG: 157 COURSES

Energy: Radioactive Densometers Procedures - (60-90 Minutes)

Energy: Wellsite Visitor Guidelines - (60-90 Minutes)

Energy: Worksite Radiation Control Procedures - (60-90 Minutes)

Energy: Worksite Waste Reduction Procedures - (60-90 Minutes)

Enviro: Hazardous Waste Management Requirements - (60-90 Minutes)

Enviro: Pollution Prevention Program Guidelines - (60-90 Minutes)

Enviro: Process Safety Management Procedures - (60-90 Minutes)

Enviro: US Environmental Regulation Guidelines - (45-60 Minutes)

What is transitionalREALITY?

While video games were once relegated to the realm of recreation and fun, these days gamification has become a highly effective tool for training and education. Throughout these experiences, your employees can gain vital knowledge in an engaging, immersive environment. Making a commitment to this revolutionary training technology will demonstrate to your workforce that their safety, health, and skill is always a top priority.

All of trainPOINT's content is developed in-house by our team of training, EHS, and development professionals. These serious games allow a 90 minute powerpoint to be converted to a 3-5 minute micro-learning course.

trainPOINT's mission is to give organizations the tools they need to be flexible and grow their training programs to ensure a safe, productive, and OSHA-compliant workplace.

LAUNCH ON ANY MOBILE DEVICE

EXPERIENCE THE FUTURE OF TRAINING.

INDUSTRIES WE SERVE:

- Research & Development
- Aerospace
- Manufacturing
- Chemical Processing
- Life Sciences
- Automotive
- Utilities
- Construction
- Food & Agriculture
- Oil & Gas

- COST EFFECTIVE
- CONVENIENT
- REDUCED RISK
- AVAILABLE 24/7

SCORM >>

Make traditional SCORM courses more engaging by incorporating real-time 3D environments.

xAPI (TinCan) >>

xAPI is the latest format in eLearning metrics allowing an unprecedented amount of data to be captured from players and displayed in an LMS.

Gameplay data is captured at the interaction level and provides meaningful metrics & KPIs.

Cultivate excellence and educate your teams with a flexible, automated training program that scales as you grow.

REAL EXPERIENCES >>

Our fully immersive virtual reality courses will provide the benefits of hands on training while solving many of the logistical & financial challenges associated with large scale simulated training exercises. Through these courses, your workforce will have the benefit of meaningful hands-on training pertaining to job skills applicable in the workplace.

This will allow your organization to deploy your training curriculum and procedures globally while avoiding costly mistakes that can be made when employees are trained on real machinery. These "Real Experiences" nurture an emotional connection to the training materials that have a lasting impact on muscle memory & retention.
